Turn around, make your move  
Turn around, make your move  
Turn around, make your move

I can feel you staring, your eyes undressing me  
Everytime I'm near you boy, my heart skips a beat  
Stop anticipating, don't play hide and seek  
My love's for the taking if you're playing for keeps

Every little thing you do  
Is saying that you want me to  
Wouldn't keep your heart behind the wall of ice  
Every single breath you take  
Is another second that you waste  
I don't like the shy boys  
Open up your eyes boy

Turn around, make your move  
Wait too long and you might lose  
Don't you wanna be mine, Don't you wanna be miine  
Turn around, make your move  
Nothing's wrong, just say you do  
Don't you wanna be mine, Don't you wanna be miine

Yeeah, do it now

Nothing comes from nothing, I won't give it away  
I'm wonderin' if you love me, because you never say  
Don't play with my passion, I can't read your mind  
Boy let's see some action, show me some kind of sign

If I opened up my heart, would you even know where to  
start  
Am I guessing wrong about your feelings  
? fantasy, ? you wanna be  
Explain to my affection, have I got your attention  
Turn around, make your move  
Wait too long and you might lose  
Don't you wanna be mine, Don't you wanna be miine  
Turn around, make your move  
Nothing's wrong, just say you do  
Don't you wanna be mine, Don't you wanna be miine oh

mine

Tell me where I'm goin' wrong  
Have I been this?  
Is it something that I said  
Or didn't sa-aay-yaa-aay-yaa

Every little thing you do  
Is saying that you want me to  
Wouldn't keep your heart behind the wall of ice  
Every single breath you take  
Is another second that you waste  
I don't like the shy boys  
Open up your eyes boy

Turn around, make your move  
Wait too long and you might lose  
Don't you wanna be mine, Don't you wanna be miine  
Turn around, make your move  
Wait too long and you might lose  
Don't you wanna be mine, Don't you wanna be miine

I know, I know you wanna be mine  
I know, I know you wanna be mine  
I know, I know you wanna be mine  
I know, I know!

I know, you wanna be mine  
I know, you wanna be mine  
You wanna be mine, You wanna be mine  
Uh!

Baby don't play, baby don't play  
Baby don't play, don't play that way  
Baby don't play, baby don't play  
Baby don't play, don't play that way  
Baby don't play, baby don't play  
Baby don't play, don't play that way

I know you wanna be mine, right here

Chorus 2x

Make that move! Make that mooove!  
Make that move with me boy!  
Don't be shy!

Now wasn't that great, see?
