Denise Williams & Johnny Mathis

I bet we've been together for a million years
And I bet we'll be together for a million more
Oh it's like I started breathing on the night we kissed
And I can't remember what I ever did before

What would we do baby without us
What would we do baby without us
And there ain't no nothing we can't love each other
through
What would we do baby without us, sha, la, la, la

It fits absolutely perfect, the last puzzle piece
And it all just comes together like we had it planned
Ooh, it's like we share a secret we could never tell
Cos no-one else but you and me could understand

What would we do baby without us
What would we do baby without us
And there ain't no nothing we can't love each other
through
What would we do baby without us, sha, la, la, la

You got my number and I know you know it
And I'm sticking with you til the end
Ooh, I'm in trouble, if I ever lost you
I'd spend my whole life looking for you again

You got my number, you got my number
You got my number

What would we do baby without us
What would we do baby without us
And there ain't no nothing we can't love each other
through
What would we do baby without us, sha, la, la, la

You got my number, you got my number
You got my number, sha, la, la, la
You got my number, you got my number
You got my number, sha, la, la, la

You got my number, you got my number
You got my number, sha, la, la, la
