Take my hand

Join me in this celestial dance

I'm only brave enough to ask

Because I already stole a glance

And I saw me in your eyes

That's what I saw

Hand in hand

We glide through amazing star filled skies

Where no time will apply

When we're traveling at the speed of sight

And you'll see yourself in my eyes

That's what you'll see

And I'll see myself in your eyes

That's what I'll see

Love is what we'll be
