

Denison Marris "Let's Dance"

Visit "[Let's Dance](#)" on MotoLyrics.com

Let's take our time
And try to imagine
Me and you you and me
For the first time
Since the last time when we
Made eyes for what seemed
Like an eternity

Let's take our time
And try to imagine
You and me me and you
For the first time
Since the last time
What did we do
We exchanged sweet kisses
And danced the whole night through

Let's dance
Until the night yields unto the light
Let's dance
You don't have to speak your eyes say to me

Let's take our time
And try to imagine
You and me me and you
For the first time
Since the last time
We can see this through
All the way from my heart
And into you

Let's take our time
But this time let's not imagine
Me and you you and me
For the last time
Since the first time
Can we exchange all our dreams
Into reality
