"Sing With Me"

Visit "[Sing With Me](#)" on MotoLyrics.com

Breathe in
Breathe in the day
Inhale all of it's life
Before it fades
Faill all of your lungs
Until you can't help but say
I feel so alive
Even more than yesterday

Clouds that hide
Light & sunshine that blind
Warm air
Cold rainfall
They all bring the world to life

So sing with me
But don't use just anything
Sing with all of your hearts
And your whole beings

This is the song
That we all must sing along
Every morning when you awake
Raise your face and sing
Until your voice fades away
