Taking myself back to the time
When we were in your room you looked straight
through
The life that I've led, things that I've said
Made you tired

But you could always find the best in me
You can allways sense the times that I've been falling
apart
The shape of my heart shows it's marks

It's a lonely life
We both know that
Things are gonna change

You're over my head, over my mind
Walk with my face down (and my eyes)
Over my head, over my mind
Walk with my face down
Walk with my head down

I'm going on two weeks since I last saw
The smile that depended on my life
For things that she needs
I just called to see if you're fine

It's a lonely life
We both now that
Are you safe away?

You're over my head, over my mind
Walk with my face down (and my eyes)
Over my head, over my life
Walk with my face down
Walk with my head down

Over my head, over my mind
Over my head, over my mind
Over my head, over my mind
Over my head, over my mind
Over my head, over my mind
