Day after Day  
Buildings that stretch  
Only hope can touch that high  
Rivers Divide  
Treetops that line  
How I tried  
How I tried  
Remember the things you have seen  
The sun that shines down on the world so still  
Think of the places you'll go  
Somewhere the language sounds like music to your  
ears  
I took off a year  
I put into words  
Only hurt and how that feels  
Changed by a friend  
Shining a light  
Only joy and what that yields  
Remember the things you have seen  
The way her head felt on your arm that night  
Think of the places you'll go  
Somewhere the music sounds like language to your  
ears  
Remember the things you have seen  
Remember the things you have seen  
Remember, Remember  
Remember the things you have seen
