Everybody move  
Move it on up and move it down  
Sweet little thing ease it down  
Fall in the pool and you'll drown  
Everybody move  
Wear out the soles of your shoes  
Wear out the soles of your feet  
Move to the beat, toute de suite  
There's a red lite a comin'  
There's a red lite a comin'  
Slam on the brakes and slow down  
Everybody move  
Unwanted pounds will disappear  
You'll have an itty bitty rear  
Better lay off of the beer  
There's a new thang a comin'  
There's a new thang a comin'  
Better do something with your hair
