If I knew back then  
All the things I know today

Baby, I would not  
Have changed one hour  
Cause I learned so much  
From my mistakes

All the nights we cried  
And we prayed we'd see  
The morning light

We never thought that  
We could ever make it  
And you were sure  
You'd never hear me say

This is the time  
This is the moment  
We've waited so long  
Just to be standing here

We had a dream  
We made it happen  
Nobody believed that  
We could get this far

And now I know  
That this is our time  
Baby, baby, it's our time

You never wanted  
Any fortune or fame  
You said, baby  
Just give me your heart

And now I'll tell you  
Without any shame  
That you were right  
From the start

Staying together

It ain't easy  
In a world that  
Changes so fast

Yeah, but take a look around  
Our feet are squarely  
On the ground  
Cause we've found a love  
That can last

And it seems so clear  
I know that this is  
Gonna be our year

Oh, we'll forget about  
The pain and sorrow  
And we'll forget about  
The times we failed

This is the time  
This is the moment  
We've waited so long  
Just to be standing here

We had a dream  
My God, it happened  
Nobody believed that  
We could get this far

This is the time  
This is the moment  
Nobody believed that  
We could get this far

We had a dream  
My God, it happened  
Nobody believed that  
We could last this long

And now I know  
That this is our time  
Baby, baby, it's our time  
Yeah, yeah

This is the time  
This is the moment  
We've waited so long  
Just to be standing here

We had a dream  
We made it happen

Nobody believed that  
We could get this far

This is the time  
This is the moment  
We've waited so long  
Just to be standing here...
