Ladies and gentlemen of the class of 99  
Drink beer  
If I could offer you only one tip for the future  
Beer would be it.  
The long term benefits of beer have been proven by  
scientists  
Whereas the rest  
advice has no basis more reliable than my own  
meandering expierince

I will despense this information now

You are as fat as you imagiane  
You really do look like your drivers license picture  
Do something about it  
No one wants to date a fat pig  
If insertiting a 7 inch iced tea spoon down your throat  
to induce vomiting is what it takes  
Well then so be it  
Do 1 thing everyday that makes your mother ashamed  
Don't floss  
Wayward pieces of parsly and beef in your teeth really  
don't look that bad  
You've already had your turn of living in New York  
So leave  
Now  
You're wasting space  
And breathing up all of our oxygen  
Go live in Northern California  
But leave before you simultaneously die in an  
earthquake and a gang related shooting

Sometimes you'll be ahead  
Sometimes you'll be behind  
Sometimes you'll be on top  
Sometimes you'll be on bottom  
Smoke ciggarettes with reckless abandon  
When your speaking through hole throat  
You can always sue the tabbacco company  
And say  
I did not know it was bad for me  
After all

Ill gotten game is what it's all about  
Maybe you'll married  
Maybe you won't  
But most likely you'll end up divorced  
With a litter of children  
With 8 different mothers  
Spending the rest of your life selling rip off Gucci bags  
outside court authority  
To pay off alimony and child support.  
Dont even try to dance  
You're a guy for godsake  
Not even the electric slide at a wedding  
Read GQ magazine and strive to look like the guy on  
the cover  
Undergo elective reconstructive plastic surgery  
including lipo suction and penis enlargement  
Make fun of old people  
It's fun  
And understand that friends will stab you in the back  
for price of an extra value meal  
And the flame broiled isn't always better  
Nevermind  
But trust me on the beer.
