"School Girl"

Visit "[School Girl](#)" on MotoLyrics.com

School girl, you're a fool girl
School girl, you're a fool girl
School girl, you're a fool girl
School girl, you're a fool girl

School girl, don't be a fool
Lived long enough under your father's rule
One more semester and we're on our way
Living life together everyday

Every night when the whole world is sleeping
We'll make it right

School girl, tell all your friends
That's the man you're gonna love 'til the end
I'll pick you up at your final class
We'll do the things we love to do at last

Come on girl
Hold me girl
