"Long Blue Word"

Visit "[Long Blue Word](#)" on MotoLyrics.com

You'd try to tear down the pyramids
But I would let them stand
One by one by one our differences
Tumbling grains of sand
Something ain't right
Long blue word
I am only one, one against your many
I try to keep my worries small
If in fact there are any
So overcome it my love
Overcome it my love
Long blue word, gonna come true some day
Long blue word, gonna look up at you and say
Long blue word, it's just around the corner
Long blue word, goodbye
Why should we challenge the sky
When every drop of rain is proof that we will never fly
So overcome it my love
Overcome it my love
Long blue word, gonna come true some day
Long blue word, gonna look up at you and say
Long blue word, it's just around the corner
Long blue word, goodbye
Then it's gonna be too late
Ali ali all come free
Then it's gonna be too late
Ali ali all come free, in the end we all get free
Long blue word, gonna come true some day
Long blue word, gonna look up at you and say
Long blue word, it's just around the corner
Long blue word, goodbye
