

Bigwig "Appreciation"

Visit "[Appreciation](#)" on MotoLyrics.com

I've been so blind not to appreciate what fed me and
what dressed me. A life can't be represented by what
it's worth. So do your part as long as you're on this
earth. My earth, your earth, our earth. Alternatives to a
learned nature have been made accessible. A life can't
be represented by what it's worth. So do your part as long
as you're on this earth. My earth, you're earth, our
earth. Now this concept seems so insane how people
can be so inhumane. I've done it but I realize your
killing too so open your eyes. Do as much as you can
live and let live. Learn as much as you can live and let
live. Fight as hard as you can live and let live. Be as
strong as you can live and let live.
