New sound all around
You can hear it too
Getting hot, never stop
Just for me and you

Playing on my radio
And saying that you have to go

New day turn away
Wipe away the tear
New night feel alright
Knowing that you're here

Dancing with you all the time
And don't you think that it's a crime

Back street never meet
Never say goodbye
I know where you've been
But I don't know why

You say that it's from above
Then I say this is modern love
