Overflowing senses
Heightened awareness
I hear my blood flow
I feel its caress

Whispering cosmos
Talking right to me
Unlimited, endless
God breathing through me

See the microcosm in macro vision
Our bodies moving with pure precision
One universal celebration
One evolution, one creation

Thundering rhythm
Pounding within me
Driving me onwards
Forcing me to see

Clear and enlightening
Right there before me
Brilliantly shining
Intricate beauty

See the microcosm in macro vision
Our bodies moving with pure precision
One universal celebration
One evolution, one creation

See the microcosm in macro vision
Our bodies moving with pure precision
One universal celebration
One evolution, one creation
