

## Depeche Mode "Monument"

When the site was found  
We laid the foundations down  
It didn't take long before  
They came back tumbling down  
Don't build at night  
You need a little light  
How else you going to see  
What it is going to be like!

So we picked up our tools  
And we warked in the morning light  
With the last stone placed

Wasn't it a wonderful sight  
But it fell back down  
And scattered all around  
Anything passes  
When you need glosses!

My monument it fell down  
My monument it fell down

Wark all of my days for this kind of praise  
It fell down  
Wark all of my days it fell down.
