Of that feeling
My head's in relief
You think you're in control
But you can only obey
I can move you
I can observe you
I can take different places in a different play
And I don't think you understand
What I'm trying to say
I'll be operated baby
I'm in control now

Action, action, close reaction
And make me feel
I'm thinking baby inside your head
Conversation, my creation
Nothing that you do -you know-
Unless I say
And you don't know the consequences
Of the things you said
I'll be operated baby
I'm in control now

And all the things you tried to do babe
And all the words we said before
My only part of what I started baby
But you can't stand me anymore

Of that feeling
My head's on relief
You think you're in control
But you can only obey
I can move you
I can observe you
I can take different places in a different play
And I don't think you understand
What I'm trying to say
I'll be operated baby I'm in control now
