Where were you when I fell from grace
Frozen heart, an empty space
Something's changing, it's in your eyes
Please don't speak, you'll only lie
I found treasure not where I thought
Peace of mind can't be bought
Still I believe

I just hang on
Suffer well
Sometimes it's hard
It's hard to tell

An angel led me when I was blind

I said take me back, I've changed my mind
Now I believe
From the blackest room, I was torn
You called my name, our love was born
So I believe

I just hang on
Suffer well
Sometimes it's hard
It's hard to tell

I just hang on
Suffer well
Sometimes it's hard
So hard to tell
