(Written by Vince Clarke)

Sometimes watch you walk down the street

I fair drive

Sometimes I can feel you in the air

Looking good, nor you would

All the time I understood

Hey you're such a pretty boy

So pretty

Everybody seems to look in your way now

(Everybody seems to look your way)

Everybody wants to know your name

(Hey, hey, what's your name?)

Feeling right, just tonight

Didn't say you're outer side

Hey you're such a pretty boy

So pretty

All the boys we got to get together

All the boys together we can sing

We can go, never know

All the things we need to show

Hey you're such a pretty boy So pretty
