You got to work hard, you got to work hard  
If you want any at all

Nothing comes easy  
And that's a fact  
Nothing comes easy  
But a broken back

You got to work hard, you got to work hard  
If you want any at all

You got to work hard, you got to work hard  
If you want any at all  
Nothing comes easy  
It never will  
Nothing comes easy  
But a broken will

You got to work hard, you got to work hard  
If you want any at all

You got to work hard So work hard!
