Visit "[Not Tonight](#)" on MotoLyrics.com

It's nothing like jealousy
When I look at you religiously
I wanna love you baby exclusively
So don't talk to me about theory
Not tonight

Love is not a bad idea
And I ain't talking about chemistry
Or how they say it's supposed to be
That you feel me don't talk to me about theory
Not tonight

Tonight we've got an alibi so just in case the world
would die
No one nowhere can take away our right this now to
hide away
Tonight we fell a thousand miles but landed on our feet
I'm still looking for a plan that counts but tonight I'm
staying home

This is not an issue on wrong or right
We're about to steal some time tonight
So hush now love turn down the lights
And don't talk to me about important fights
Not tonight

Tonight we've got an alibi so just in case the world
would die
No one nowhere can take away our right this now to
hide away
Tonight we fell a thousand miles but landed on our feet
I'm still looking for a plan that counts but tonight I'm
staying home
