Music: Jochen Klemp, Lyrics: Peter Habermann

Mother got pregnant by rape  
Identical twins came to being, but they were different  
in their minds  
The fatal flaw was the bad disposition  
Two charactes in black opposition  
The birth of the twins started this game  
And relieved mother from the shame  
So we grew up...

-Often I saw you caressing your cat  
I devised evil plans, you did not smell a rat  
-I told you 'bout things you won't understand  
Rays of hope are fading, why can't we become friends?  
-Feel the fascination of obscure ideas  
Where is room for love? I want to take and never give

-Eclipse and enlightenment since cosmogony  
But I'll laugh at your obsequies when you kiss my feet  
-You made me cry, then you licked off my tears  
Nevertheless I will love you, but replaced love with  
-Vibrations fill our discord, I'm craving for the pleasure  
I feel when creatures praise me in agony...and die!

-Always before I fall asleep

I sense your presence, Mom, like a good night-kiss  
My clown forgot all his jokes, my snowman has melted  
to tears  
When he ripped off my dolls and stuck hails in their  
furry ears  
-Permanent pain release, fantastic disharmony  
Injustice is put on stage, you and me in one cage  
Die fly! Kiss the abyss!  
Arise! Who's wise?  
-You never stayed hungry when you smelt the taste of  
blood  
While I taught the wolves crying and broke black  
widow's heart  
We can live, we can die, but always together, forever  
apart

-Control saves the state, piece falls my hate  
No hope still for escape, we follow the cosmic trace  
Good and evil  
Who wins? The eternal twins!

-Ametric destiny, preposterous comedy  
-Atomal overtones, aesthetic abscess  
-Immortalized tears, paralyzed fears  
-Under a spell in condemned cell

-Loose or bear the bell  
-At any rate I'll see you in hell
