Music: I. Grigoleit, Lyrics: J. Lubitzki

First dead on this sunny day  
Solar rays have taken  
mother's life away to transform it  
in veils so soft and thin  
that overcast our whole earthball thing

Goodbye take your course  
Thank you for all your love  
Don't wait for your son. Goodbye

Raise now, spread your soft veils wide  
and begin to slide  
through all bad brains and through all the blame that  
rules  
In these dangerous fools  
Before a new destruction comes

Mother salvation  
Stick the needle on your halo in this earth to suck out all  
our hell!

Don't wait for your son, Goodbye

Take good care on your vacation  
think that you slide with me  
Fatal holes in all directions  
Please don't slip away from here, my dear  
We need you in our sphere

Mother salvation  
Stick the needle on your halo in this earth to suck out all  
our hell!  
Goodbye take your course  
Thank you for all your love  
Don't wait for your son  
Stick the needle on your halo in this earth to suck out all  
our hell!  
Goodbye
