Mr. Optimistic Mr. Big Help go to Hell
Drugged out hippie in a flowery dress you smell
You won't change a thing
You can't change a thing
I think you should leave now
Pick up your savior and strong prayer and get out of
here
Party people fun in the sun what's wrong with you?
I wish you would leave now
Good samaritan nature's friend you're no friend to me
Very old man tomorrow's soil thanks for nothing
You won't change a thing
You can't change a thing
I'm so glad you're leaving
