"Little Let Down"

Failure is just a part of it
No matter how hard I try
Making a mess of every situation my whole life
Saying sorry is not the answer to letting you down
While I wait here in your shadow I'm turning it all
around
I'm glad to disappoint you it's nice to let you down
I'm your little let down
Falling short of expectations is part of the routine
Reaching for the lowest standard is the only goal we've
set for me
I'm so glad to disappoint you it's nice to let you down
I'm your little let down
These limitations that burden me must be the icing on
your cake
The patience you've been gifted with how much more
can you take?
Being sorry is not an excuse for letting you down but
I'm so sorry
I'm your little let down
