Seeing ourselves in a magazine makes us proud
So everyone grabs a brush like me
The silver paint looks great on the inside of this fucking
cloud
The beat gets bigger and the dream does too
If a radio man has a vision for you but if he's drunk or
deaf
Or in disguise like the rest then we'll do best if we
screw one another
We felt so cool I felt so high but I'm coming down now
I'm coming down now the high is over I'm coming down
now I feel so sober

So many places so many blank faces waiting to be told
what's cool and what to be into
Could jump off a bridge to make MTV or overdose to
qualify
As a rock star the place ain't packed the place ain't
jumping our tunes are wack
And bad attitude's pumpin' the fantasy factory is
cranking out lies take it
From a sucker who's locked on the inside
Want to be cool? Want to get high? Go ahead I'm
coming down now
