

Depths Of Silence "Reviving The Flame"

Anger pouring in our hearts as silence spreads feeding
out harmony, selfishness legacy How could we keep
over looking the sickness harming our weal-being? I
beg for the coming of the outbreak freeing us from this
inner cell of repression by our inaction, we consent to
the will of the BREEDERS OF CONFORMITY Unleash the
cries of discomfort hiding beneath the shame of
difference make them your pride and then they will
recreate your world
healing your scares ridden heart by reviving the fire
inside Silence will paralyse your soul
