You would be my one bad thing  
Never when you tried  
I let the fire burn out again  
And then inside  
So let my tears be realized  
Before my eyes are turned  
And every lie I've tried before  
Won't work no more I've learned

Drowning or bathing  
I've found out  
What you meant  
By the way  
Knowledge unexpectedly  
That you and me could be  
Quiet the voices in my head  
Warm my bed tonight  
So you could be my one again  
Never when you tried

Drowning, bathing  
I've found out  
What you meant  
By the way
