Let 'em break your bones  
they'll drop the sticks and stones  
Sometimes  
I'll serve it bloody rare  
The animals don't care  
Anymore  
I'll hang out on descend  
If it comes to an end  
Sometime

Once in a way you go  
I'll keep it up to let you go

I'll stop and work it out  
To let her scream and shout  
This time  
Don't weep 'cause your too good  
Now won't you 'cause you could  
Lately

Once in a way you go  
I'll keep it up to let you go  
'Cause all I have  
Is what you left me with  
Hey...

You keep it up  
'Till you go away  
You keep it up  
'Till you go away  
You keep it up  
'Till you go away  
You keep it up  
'Till you go...

'Cause all I have  
Is what you left me with  
And emptiness  
Is what you left me with
