So when she lays down it'll be
With me
Lord, she'll lay down with me

And when she walks out it'll be
On me
Lord, she'll walk out on me

When she kneeling it'll be
For me
Lord, she's kneeling for me

And if I need you to be secure
It's cause I'm not
You're so ladylike and more

When she focused it'll be
On me
Lord, she's focused on me

And if she walks with it'll be
With me
She's walking with me
And if I need you to be secure
It's cause I'm not
You're so ladylike and more

If she wishes it'll be
On me
Lord, she's wishing on me

And when she's hopeless
Lord, she's hopeless with me

And if I need you to be secure
It's cause I'm not
You're ladylike
I need you to be secure if I'm not
You're ladylike and more
