[Music: J. Axelsson, R. WermÅ©n, J. Anderberg / Lyric: J. Anderberg]

Hidden evil

The controversial is feeding my system  
My rage is now complete  
Endorse suspended animation  
Become the hidden evil  
The controversial is feeding my system  
My rage is now supreme  
The paramount of savagery  
Icon of murder

Must stimulate the most primal rage  
Become an icon of murder  
Suffocate the fools, diverted by sin  
What lies behind must be hidden  
Erase the last trace of humanity  
Imam the icon of murder

Severe and violent, expand inhuman form  
My rage is now complete, erase the infernal  
Endorse suspended animation  
Canonized by ancient evil  
Icon of murder

Formaldehyde bath, acid blood sample  
Twitching, rotten, convulse  
Life in depravity, icon of murder
