"The Right Place"

Visit "[The Right Place](#)" on MotoLyrics.com

If you're looking for a life of luxury then you ain't
looking for a man like me
But if a simple life to you is no disgrace honey you
came to the right place
The right place is right here in my arms here with me
eternally right next to my heart
For promises of love you can embrace honey you came
to the right place
[guitar]
If you're happy with a man who's never home I'll tell you
now I'm not a rolling stone
If walking hand in hand is more your pace honey you
came to the right place
The right place is right here...
[fiddle - steel]
Promises of love you can embrace honey you came to
the right place
Honey you came to the right place honey you came to
the right place
