anguish, scream unto god to die  
cut, carve, rip, serve, gently before she dies

die, lacerate your bones  
seperate your skin, tearing limb from limb  
you die

vengeance, on your knees  
gagged, blindfolded  
dead and swarming with flies

die, lacerate your bones  
seperate your skin, tearing limb from limb  
you die

assault, premeditated and out of control  
gagged, chain round your fucking throat

no fingertips, no DNA, create a grave  
force the crack with a shovel, create a grave  
face to face, or yards away, create a grave  
point blank death, attack your face, create a grave

it's obscene, they find you dead, I strangulate  
a murder scene, it's god damn fucking killing routine  
no need to run, you won't escape, I strangulate  
smash your head, it's a god damn fucking killing  
routine

die, lacerate your bones  
seperate your skin, tearing limb from limb  
you die

profanity, ain't no god to save you now  
cut, carve, rip, serve, gently before she dies

gently before she dies, limb from limb  
gently before she dies, limb from...
