From hatred I emerge, reborn in flesh, awake my  
bloodlust  
I thrive on suffering, dispatching my horde, evolve  
humanity  
Infect the hysterical, isolate defeat, refuel my hatred  
Systematic killing spree, capable of worse, nurture the  
blood  
I thrive on suffering, dispatching my horde, evolve  
humanity  
Infect the hysterical, isolate defeat, refuel my hatred  
Redeem, on fire, evolve, empire, awake, Messiah,  
infest  
On the virge of insanity I reap my ill-will  
Tear down my empire, infest it with doom

Why I bleed fire is my enigma  
Lustful dreams of flesh inhabit my mind  
On the virge of insanity I reap my ill-will  
Tear down my empire, infest it with doom  
Why I bleed fire is my enigma  
Lustful dreams of flesh inhabit my mind  
From hatred I emerge, reborn in flesh, awake my  
bloodlust  
I thrive on suffering, dispatching my horde, evolve  
humanity  
Infect the hysterical, isolate defeat, refuel my hatred  
Systematic killing spree, capable of worse, nurture the  
blood
