Ejaculate on your ravaged face.
Straddle you to prevent escape.
Hands to throat to strangulate.
Drag her out to die.

Imbecile humans will never learn.
Drag to blade across her perfect forehead.

Incision separates skin from skull.
Your entire head I cut and shread.

Ejaculate on your ravaged face.
Straddle you to prevent escape.
Hands to throat to strangulate.
Drag her out to die.

Imbecile humans will never learn.

Still brave the streets at night.
The cloak of dark my friend and partner.
Drag her out to die.

Ejaculate on your ravaged face.
Straddle you to prevent escape.
Hands to throat to strangulate.
Drag her out to die.

Imbecile humans will never learn.
Drag to blade across her perfect forehead.

Ejaculate on your ravaged face.
Straddle you to prevent escape.
Hands to throat to strangulate.
Drag her out to die.
