untel the fuckin end no buts about it.  
One more time, i'm givin you some shit  
That's gonna get difficult and will fuck with your mind,  
stop using codes  
'cause your god mode is bull shit.  
now stop befor i hit you in the nose  
hit continue to play again  
How many times do I have to tell you game players  
your far from the end. your codes are still on  
Runnin around here with god mode on like your about  
to get fucked  
The game don't stop, I'm still going down on the god  
mode  
shit that's why the game shark is off, can't play for real  
Now, some of us use codes but you don't now how  
does that feel?  
too much blood? on my games that'll bother you but i  
need to  
Whenever you try to cheat through

D-J-M

If you want to buy it i got it  
Come and get it gamma we rent it  
All you gotta do is remember this  
cheat you'll die  
What'cha gamma's want, uh, uh  
What'cha gammas want

You still playin games  
You gon think it's a easy until you reach level 8  
That's how it is  
Make your opponits disappear into thin air by puttin  
bullets through em  
shoot them in the back  
Last time you saw that guy better be the last time you  
see that guy  
(alright)  
make more deats  
'cause in a minute you gonna have the boss bein the  
only person left

use your gun  
If you gots to kill a guy but always be down for the one  
on one  
lose no life

We gonna beat this game even if it takes all night  
Stop drop  
Open up shot (what?)  
guys up-north don't leave this for the cops  
cheat you'll die  
What that means is just tell the dude buh bye then pop  
him in his right eye

[CHORUS] x2

Look at this stage

I mean he'd smack the shit out you twice dog and that's  
before he starts cursin

with a smile

And you playas that's fought with him before know it's  
about to get thick
