The days go on so friggin slow  
I just sit around like a fool for you to come over  
Im sick of been treated as your fool it time to move on  
I think it's time to move right now that the lights is  
green  
Don't know what might happened when it turns red

I'm shaking my head like there was something in there  
Clear up the situation before i say  
It's too late you screwed it all up  
There no second chances for you not for you  
Stop complaining about the same damn things  
It's getting onto my last nerve  
I waited 4 so long for you just to ruin it  
You need to understand that life comes once and that  
it

Don't give me that sorry face doesn't work anymore  
I remember all the good times good times  
But now everything seem like misery  
Seem like that stupid old garbage that skunk  
everything bad

I'm shaking my head like there was something in there  
Clear up the situation before i say  
It's too late you screwed it all up  
There no second chances for you not for you  
Stop complaining about the same damn things  
It's getting onto my last nerve  
I waited 4 so long for you just to ruin it  
You need to understand that life comes once and that  
it

losing grip,losing grip, losing grip  
ive been waiting for so long  
Ive been waiting for so damn long

I'm shaking my head like there was something in there  
Clear up the situation before i say  
It's too late you screwed it all up  
There no second chances for you not for you  
Stop complaining about the same damn things

It's getting onto my last nerve  
I waited 4 so long for you just to ruin it  
You need to understand that life comes once and that  
it

There no second chances for not for you  
See what you've done  
Tell me do you friggen see it right there  
I just don't give a damn about you  
I don't care anymore i don't care

There no second chances for not for you  
See what you've done  
Tell me do you friggen see it right there  
I just don't give a damn about you  
I don't care anymore i don't care
