Seven hundred miles, seventeen cigarettes  
Still haven't got you off my mind yet  
The daylight tossed, night time turned  
Every bridge I crossed it burned... burn

Where are you now?  
When the rain starts fallin'  
Poisoned by some heart-wrecked tongue  
That never knows what's lost or won  
When the war is finally done...yeah, yeah, yeah,  
yeah...

No matter how much I try  
Always got my wheels on fire  
Kiss the flame of fierce desire  
Riding like my wheels on fire

There's no turning back, no sense in crying  
When love is born it's already busy dying  
I've wasted so much time trying to repair

A broken heart that never seemed to care

Where are you now?  
When the sky starts fallin'  
Where are you now?  
Can't you hear me callin'... yeah, yeah, yeah, yeah...

No matter how much I try  
Always got my wheels on fire  
Kiss the flame of fierce desire  
Riding like my wheels on fire

Into your deepest fear, the wish to disappear  
Into your cold hard pain  
Into your cold hard rain... yeah, yeah, yeah, yeah....

No matter how much I try  
Always got my wheels on fire  
Kiss the flame of fierce desire  
Riding like my wheels on fire
