You can see her out there dancin every Saturday night
A little honky tonk angel with the devil inside
Every time she hears the music she begins to swing
Shes the picture of perfection in her skin tight jeans
She loves her country music loves Waylan & Merle
Chorus
Shes a heartbreakin, earthquakin, goodtimin, frustratin
red blooded country girl

All the women cant stand her cause she looks so fine
Shes got all the little boys standing there in a line
When she shakes and wiggles like a hurricane
She makes the other girls crazy drives the men insane
She loves her country music loves Waylan & Merle
Chorus 2
Shes a heartbreakin, earthquakin, goodtimin,
frustratin, steer rustlin, bronco bustin red blooded
country girl

Bridge
She dont give a damn about money and diamonds just
aint her thing
The only things thats gonna make her happy is when
she hears that cowboy sing

Well every guy in the place will want to take her home
But at the end of the evening shell be leaving alone
She aint got time for lovin aint got romance
She just wants to hear some music wants to get up and
dance
She loves to be free but you can give her a whirl
Chorus 3
Shes a heartbreakin, earthquakin, goodtimin,
frustratin, steer rustling, bronco bustin, hot lovin, good
for nothin red blooded country girl
Shes a heartbreakin, earthquakin, goodtimin,
frustratin, red blooded country girl
