I see the people  
Starvin' in rags  
I see my brother  
Lyin' down with a pain  
I hear the babies cryin'  
To their Father God  
Askin' Him why you lettin' me born into this world  
Goodbye sorrow's rain  
I turned around  
And I looked at you my darlin'  
If we don't stand together they'll try to make us stand  
alone

Pre-chorus:  
It's strange, it's a wonder but it's true  
Every time I look at you  
There's something I got to do

Chorus:  
Something to make you happy  
Come on just let me know  
If there's nothing to make you happy  
Just say the word and I'll go

I see the battle lines  
Forming slowly  
I see a silence fall  
As the winners and the losers take their stand  
I turned around  
And I hear you call me darlin'  
If we don't spread love through the land  
It'll sure enough be dry

Pre-chorus/chorus
