You wanna rock with the cops on the front line  
You wanna kick it with the people in the back  
You strike a match and you throw back a cocktail  
There's got to be a better way

CHORUS:

Cus it is hard to stay  
It is hard to wait  
To out-love, to out-suffer them  
(x2)

I wanna dream up a world I wanna live in  
I wanna spray it on a building downtown  
I wanna protest for  
Cus there's got to be a better way

CHORUS

I don't wanna wait  
No drugs nor sleep  
I wanna hold your hand, really

God bless these bombs  
Baptize this rope  
Lie with us in the bed we've made

CHORUS
