"Medication"

Visit "[Medication](#)" on MotoLyrics.com

Don't lie to me
Tell me something true
'cause i'm only free
When i look at you
And you look so good it hurts
And love, i come undone
Chorus
But i don't want medication
Just give me liberation
Even if it cuts my legs right out from underneath
Don't give me medication
I want the real sensation
Even when living feels just like death to me
Don't paint my face
I need to see the scars
So i don't forget
The back of my tutor's arm
'cause i just can't keep it straight
Which kills and which one saves
Chorus
Bridge
Cause the truth is i need you just like the air i breathe
Just like a freight train needs the tracks beneath
So I'd rather suffer my whole life and be this rich mans
wife
If loving you means suffering
Chorus
