I can't get no sleep, this life choking me  
Hate everything and everyone, all the time  
Pictures in my head, I see this world dead  
All sentenced to die by my hand, again and again

I grind my teeth in anger, close my eyes sick to my  
stomach  
When will I get through another day  
Without these thoughts of killing someone else when...

I wage a damn war, enemies be gone  
So tried of this hatework, drenching me

Pictures of you dead, impaled in my head  
Along with the hate I feel for this damn world

I grind my teeth in anger, close my eyes sick to my  
stomach  
When will I get through another day  
Without these thoughts of killing someone else I...

Don't know, don't care  
Live wrong, die wrong

When will I get through another day  
Without these thoughts of killing someone else
