Leave me alone and walk away  
I don't need your kind  
No rules on life no crooked sign  
No cross or fascist lies  
Crucified burned alive ashes of the dead  
History has shown the face of true ignorance

No cross is mine  
Submissive mass production  
Of human slime

Insanity in function

Just turn your head around and leave  
Your face makes me sick  
So insecure and corrupted  
For someone else you bleed

No cross is mine  
Submissive mass production  
Of human slime  
Insanity in function
