IT DONÂ'T TAKE MUCH

DERYL DODD

JIM COLLINS

WasnÂ't long ago I was down on my luck
Thought the whole world was against me felt like giving
up

Then along came a brother with the right words to say
HeÂ'll never know how much it helped me that day

Chorus

Cause it donÂ't take much to give a little
A light in the darkness goes a long long way
No it donÂ't take much to make a difference
Never underestimate love Â'cause it donÂ't take much

ThereÂ's a little old lady who lives down the road
Just lost her husband now sheÂ's there on her own
Spent their whole lives together must be hard to let go
Think IÂ'll stop by today and say hello

Repeat chorus

Cause it donÂ't take much to give a little
A light in the darkness goes a long long way
No it donÂ't take much to make a difference
Never underestimate love Â'cause it donÂ't take much

Bridge

SomethinÂ' as simple as a smile on a face
Can make this old world a better place

Repeat chorus

Cause it donÂ't take much to give a little
A light in the darkness goes a long long way
No it donÂ't take much to make a difference
Never underestimate love Â'cause it donÂ't take much
