Well I heard it from a friend
You've been seen with someone else
And lately it's no secret
You've been keepin' to yourself
Don't keep sayin' you still love me
If you can't show me that it's true
'Cause this time your words alone just won't do

I need some stronger proof
To wash away my doubt
If I'm gonna face the truth
Then go ahead and pour it out
Well it may be hard to swallow
But I'm gettin' to the bottom
Of this before the night is through
Come on and give it to me straight now
I need some stronger proof

I can't believe I'm on this barstool
With my fingers 'round a glass
All the lies that she'd been hidin'
They came spillin' out at last
Well I'm goin' to take a shot at
Chasin' her from my mind
So bartender let's forget the beer this time

I need some stronger proof
To wash away my doubt
If I'm gonna face the truth
Then go ahead and pour it out
Well it may be hard to swallow
But I'm getting to the bottom
Of this before the night is through
Come on and give it to me straight now
I need some stronger proof

Now give it to me straight now
I need some stronger proof
