YOU'RE NOT LOOKIN' FOR
DERYL DODD
Well baby you've never stopped lookin'
For the right man to come along
Though you've had the best of intentions
They just keep on turnin' out wrong
Well I may not be some prince charming
But a man of my world that's for sure
When I say that I'll love you forever
You can count on forever and more

Chorus

Baby I know that you've been searchin' for so long
And baby I know that your will to love is all but gone
If you will turn your heart my direction
And walk through this wide open door
You will find all the love and affection
In a man, you're not lookin' for

I can't understand how anyone
Could have held you and told you goodbye
It must be all part of the reason
That we're both here together tonight
Well this sure feels like a miracle
Like the magic that each new day brings
Cause all in this world that we're hopin' for
Likes in some things that we've never seen

Chorus

Baby I know you've been searchin' for so long
And baby I know that you will to love is all but gone
If you will turn your heart my direction
And walk through this wide open door
You will find all the love and affection
In a man, you're not lookin' for

Repeat chorus
