Times in my soul when I feel low, no one can help me
Words I need evade me, you always hear me cry
Your love inside of me you know what I'm feeling
I need you, yes I do. Save me

Save me, save me
Cos I want to climb much higher
So I can see
I need saving like a mother saves her child
Like a brother going wild
Can you hear me, can you hear me? Save me

Is it only when things go wrong, then I call your name
I feel bad inside, I try to hide, you always know where I
am
Watching over me, shielding me. You know what I'm
feeling
I need you, yes I do. Save me

Why do I doubt you? Forgive me Lord
Can't do without you I live by your word
No one stands near to you
I shouldn't doubt you, forgive me Lord
Can't do without you I live by your word,
no one stands near to you

Ooh ooh, ooh ooh
Mm mmm mmm mmm

Save, save, save, save me
