"Expect No Release"

Visit "[Expect No Release](#)" on MotoLyrics.com

Receiving the infernal urge from inside
Satanas guides me tonight
Deriding the laws of your so called god
Destroyed is all hope for release

Raping the souls of the helpless & weak
Here is no peace for all time
Closed are the gates of heavens above
Profanity will now be mine

[Chorus:]
You feel my grasp
But can't see me
Agony drives you to despair

Scream out in vain
There's no escape
Morbid laughter - Expect no release

Searching the truth behind the truth
Reading between the lies
Time has come for you now to pay
Soon you'll face the eclipse

Here I give life to the beast
And cast the final spell
Preachers, priests and pope
I'll take you all to hell

[Repeat chorus]
