Walking the dead in filthy dreams  
Vomiting out fevered destiny  
Forged and bearded violently  
Taking breath as it has meant to be

Death injection to the bone  
Won't be bored from hell we know  
For existence my grotesque  
A faithful everlasting breath

Insanity lies within the mind  
Strangled views of morbid sight, of morbid sight  
Come bring the mob to cross horizons  
Sterilize and exercise them

Beyond your grace I cum spitting hell for healing  
wombs  
Your virginity dethroned

Deranged, dethroned the sheep of light  
Poisoned speak of feeble pride, of feeble pride  
Come bring the mob to cross horizons  
Sterilize and exercise them

Beyond your grace I cum spitting hell for healing  
wombs  
Your virginity dethroned

Covenant for making dreams  
Sold out hero obviously  
Feeding conflict fucking slaves  
Endorsed by Satan, mastery insane, insane  
Pure sickness was grown  
Horned damnation as we know  
For the blessed by Satan's might  
Waking souls and thinking mind

Beyond Your Grace I cum
